WHO ARE WE ?

Our teams

SOCAB INTERNATIONAL's teams comprise highly experienced men and women who can assist you with all your development projects, in France and outside France.

Our business

SOCAB INTERNATIONAL manufactures and develops a comprehensive range of aluminium profiles and accessories for removable office partitions.

Our values

- Delivery of optimal solutions as a trusted partner and technical advisor
- Guaranteed flexibility, agility and responsiveness
- Impeccable quality products and solutions

Our teams will make every effort to ensure we can build a solid and long lasting relationship with you.

OUR SERVICES

Technical consultancy

Our teams provide comprehensive technical advice so you can develop your office fit-out projects. Based on your partition plans, we draw up implementation and partition elevation specifications, provide 3D viewing, and can oversee total throughput of your project.

We use our manufacturing experience to develop tailored profiles that meet all your requirements.

Project assistance

SOCAB INTERNATIONAL can assist and work with you throughout your project.

Once the project commences, we can post a site supervisor on-site to validate technical information and support your installation teams.
